SUMMARY

Highly motivated and results-driven B.Tech student in Artificial Intelligence and Data Science with a strong analytical mindset and proven ability to transform complex data into actionable business insights. Skilled in SQL, Excel, and Python for data manipulation, with hands-on experience in building dashboards, automating reports, and deriving strategic recommendations. Demonstrated success in real-world projects involving predictive analytics and data visualization. Passionate about using data to solve business problems, optimize performance, and support decision-making in fast-paced environments like Amazon. Seeking to leverage technical expertise and business acumen in the 2025 Amazon Business Analyst Internship.

EXPERIENCE

Data Science Intern

InternForte

Bengaluru

- Worked on real-world datasets to perform data cleaning, preprocessing, and EDA using Python and Pandas.
- Built predictive models and visualized insights using Matplotlib and Seaborn.
- Developed a Market Adaptive Intelligent Dynamic Pricing System to optimize product prices using ML.
- Built a model for Predicting Loan Repayment Likelihood for a microfinance institution.
- Applied data-driven insights for Enhancing Real Estate Investment Decisions using regression and clustering techniques.

Summer Intern

M SQUARED SOFTWARE AND SERVICES

Trivandrum

- Assisted in developing and styling responsive web pages using HTML, CSS, and basic JavaScript.
- Gained hands-on exposure to frontend workflows and website structure fundamentals.

UI&UX Intern

AK INFOPARK

- Designed intuitive and responsive web interfaces using Figma and Sketch.
- Focused on user-centered design principles, creating wireframes, prototypes, and conducting usability testing.

PROJECT

Market Adaptive Intelligent Dynamic Pricing System

Loan Repayment Prediction

Real Estate Investment Analysis

Factory Machines Downtime Prediction Dashboard (Deloitte Certification)

Interactive Sales Dashboard (Tableau)

RAG-based AI Assistant – (GUVI Challenge)

Automated Pivot Table Creation and Analysis (UiPath)

EDUCATION

B . Tech in Artificial Intelligence and Data Science

Ar unachala College of Engineering For Women • 2022-2026 • 9.2 2

Higher Secondary

Islamic Model Matric Higher Secondary School, Thiruvithancode • 2021-2022

High School

Islamic Model Matric Higher Secondary School, Thiruvithancode • 2019 -2021 • 96

CERTIFICATIONS

Google – Data Analytics Professional Certificate

Accenture Digital Skills – Artificial Intelligence Certification

Cognizant – Artificial Intelligence Job Simulation

Introduction to Applied Data Science with Python

Deloitte Australia – Data Analyst Job Simulation

AWS APAC’ Virtual Experience Program -Solution Architecture

HP Life -AI for Beginners

Generative AI by GUVI

Introduction to Big Data Cloud Computing Bootcamp Certification

Business Analysis and Process Management Certification

AWARDS & HONORS

IEI Organization

- Awarded for academic performance.

Academic Excellence & Performance

Arunachala College of Engineering for Women

- Excellence Award and Academic Performance Award for consistent academic Topper from Arunachala College of Engineering for Women.

Centum in Biology

Islamic Model Matric Higher Secondary School, Thiruvithancode

- Scored a centum in 12th-grade Biology.

School Topper

Islamic Model Matric Higher Secondary School, Thiruvithancode

- Achieved Topper status in both 10th and 12th grades.

Extracurricular Achievements

- Recognized for excellence in extracurricular activities.

Presentation & Technical Events

- Awards in Paper Presentation, Debugging, and other technical events.

Hackathon Wins

- Winner: MSME Hackathon Participated in Google India Girl Hackathon 2025 and Smart India Hackathon 2025.

International Innovation Fest

CAPE College

- Participated in the International Innovation Fest by CAPE College .

Intra and Inter-Collegiate Competitions

- Won various intra and inter-collegiate competitions.
